10/23/10

United Nations 65th Anniversary to be celebrated with numerous events in the Bay Area and San Francisco, site of the signing of the UN Charter on October 24, 1945.

Transforming the UN into a democratic world federation will not be a focus point, hence no discussion of current campaigns to create a democratic world parliament, or to have an Article 109

UN Charter Review.

The goals of the celebration appear to be more to generate a sense of world community, understanding, and goodwill toward the more positive aspects of the United Nations.
